

Preregistration as a Means to Improve Science

Nathan (Nat) Goodman

June 20, 2019

A collection of documents exploring the usefulness of preregistration as a means of improving science.

The current version contains two documents:

- [A Friendly Debate About Preregistration](#)
 - [Word source file](#) in this repo
- [Preregistration: Hold the Bus!](#) kindly posted by Bob Reed on The Replication Network (TRN).
 - [TRN blog post](#)
 - My posted version: [html](#), [pdf](#)
 - [RMarkdown source file](#) in this repo

There is no code or data yet.
